DETAILED ACTION

Claims 1-26 are pending in this application. Amended claim 1 and newly added claim 26 are noted. Claims 12, 16, 18, 20, and 22 are withdrawn from consideration as being directed to a nonelected invention.

The amendment dated 8/17/05 has been entered and carefully considered. In view of the argument provided, the previous art rejection has been withdrawn.

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-11, 13-15, 17, 19, 21, 23, and 26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nakata et al. (US 20020094458A1). Nakata discloses a process for producing a magnetic recording medium which exhibits excellent magnetic properties, especially, coercive force squareness S* value and a more enhanced surface smoothness (Par 1) in which a magnetic layer is formed on a substrate and subjecting the film to a sputtering treatment in an oxygen-rich atmosphere (Par 29-30). Two separate sputtering chambers adjacent to each other can be utilized (Par 57) and it is under vacuum (Par 68). In addition, a protective layer can be utilized to prevent the deterioration of magnetic properties due to the oxidation (Par 10). However, the reference fails to specifically teach a third portion of the apparatus.

It is noted that the reference teaches of applying a protective layer. One skilled in the art would realize that a third portion of the apparatus could be utilized to increase deposition

efficiency but at an increased apparatus cost. Hence, it would have been obvious to utilize a third portion of the apparatus with the expectation of increasing deposition efficiency.

The limitations of claims of 2-11, 13-15, 17, 19, 21, 23, and 26 have been addressed above.

Allowable Subject Matter

Claims 24-25 are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
